

Trustworthiness

Chorus

**Trusting you – Trusting me
Trust that goes both ways keeps our lives in harmony
Trusting you – Trusting me
You can always trust that what I say is true
And everything I do will always be
Built on trusting you trusting me**

When I feel safe around you
I can just let go and be who I am
When folks you can trust surround you
Somehow you always know where you stand

Chorus

I need to make myself worthy
Of being someone you can trust everyday
What a different place would this world be
If our kind of trustworthiness was everybody's way

Chorus

**Built on trusting you trusting me
Built on trusting you trusting me**
